About Us

Aydoğmuş Zeytinleri is an olive and olive-products company founded by Hüsni Aydoğmuş in 1986 and successfully managed today by Erkan Aydoğmuş and Çetin Aydoğmuş. A leading name in Türkiye and in international markets, we serve our customers under the Aydoğmuş brand at home and under the Yeşim brand abroad. We produce more than 8,000 tonnes of olives a year — 5,000 tonnes of black olives and 3,000 tonnes of green olives — and our experienced team and modern infrastructure give us a production capacity of up to 15,000 tonnes.

Our production facilities are constantly evolving. Our Gemlik plant, founded in 2005, operates on 8,000 m²; our Akhisar plant, founded in 2014, started on 4,000 m² and has grown to 15,000 m², of which 9,500 m² is enclosed production space. Our Orhangazi warehouse adds another 3,000 m². In total, 26,000 m² of modern facilities are equipped to the latest technology and hygiene standards.

Through Yeşim, the brand we founded in 2010, we export to 11 countries.
