About Us

Yeşim is the international face of Aydoğmuş Zeytinleri, an olive brand established in 2010. We bring the olive craftsmanship we have practised since 1986 to tables around the world. Of our annual production of more than 8,000 tonnes, 5,000 tonnes are black olives and 3,000 tonnes green olives; our experienced team and modern infrastructure give us a capacity of up to 15,000 tonnes.

Production takes place in our Gemlik plant (founded 2005) and our Akhisar plant (founded 2014, now 15,000 m²) — 26,000 m² of modern facilities in total, operated to the latest technology and hygiene standards.

Under the Yeşim brand we export to 11 countries.
